

Holdings of the Library of the Royal Society of Western Australia

The Royal Society of Western Australia has a moderate, but important, collection of books, journals and other items for scientific research; over 350 books, and 986 serial titles of which more than 300 are current in the collection. Most materials have been obtained on exchange for The Journal of the Royal Society of Western Australia, and many of the overseas titles are held nowhere else in the State.

The Royal Society Library contains over 100 monographs published prior to 1900, many of them donated. These include several rare titles on early voyages to Australia, and on the botany of Australia. The Library holdings of the Royal Society of Western Australia have been housed in the Western Australian Museum since 1960. The WA Museum Library is one of the oldest government libraries in the State. Its collection includes over 17,000 monographs, 1500+ serial titles (693

current), over 20,000 reprints, maps and other archived material.

The main WA Museum library, including the RSWA library, and a central computerised catalog are located at the WA Museum building in Perth. Borrowing from the WA Museum library is restricted to Museum staff, but the collection is available to the public for research. Articles may be photocopied and most books can be obtained on interlibrary loan. Visits are possible only if a staff member is present. Please phone first and make an appointment.

Open: 8.30am - 5pm Monday to Friday

Location: 2nd floor, Western Australian Museum, Francis Street, Perth

Phone: (08) 9427-2771 and 9427-2772

Librarian: Ms M Triffitt: triffm@museum.wa.gov.au
